

Appl. No. 10/862,202
Amdt. Dated January 18, 2005
Reply to Office Action of December 15, 2004

Docket No. IS01379MCG
Customer No.. 23330

REMARKS

Claims 1-24 remain in the application. The actions taken are in the interest of expediting prosecution and with no intention of surrendering any range of equivalents to which Applicants would otherwise be entitled in view of the prior art. Moreover, the amendment or cancellation of claims herein is without prejudice to pursuing claims of different scope by way of continuing Application. Reconsideration of this application is respectfully requested.

Double Patenting

Claims 1-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 and 28-36 of U.S. Patent Application No. 10/661,653. Applicants respectfully submit that the terminal disclaimer accompanying this response to the Office Action overcomes this rejection.

Prior Art

The references cited but not relied upon are believed not to anticipate or make obvious Applicants' invention.

Summary

No amendment made was related to the statutory requirements of patentability unless expressly stated herein. No amendment made was for the purpose of narrowing the scope of any claim, unless Applicant has argued herein that such amendment was made to distinguish over a particular reference or combination of references.

The Applicants believe that the subject application, as amended, is in condition for allowance. Such action is earnestly solicited by the Applicants.

In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicant's attorney or agent at the number indicated
